

Hospital Board Member – Individual Assessment

Being a hospital board member is a complex and challenging assignment. This survey is meant to capture your thoughts on how comfortable you are with this role and to identify any areas for potential board training. We want you to be honest with your answers, so we're not asking for names. However, we trust you would feel comfortable talking with the CEO and/or board chairman if there is an issue you believe needs addressing immediately. Thank you again for your commitment to our hospital and patients.

Please rate the following statements based on your level of agreement with them:

Strongly Agree
Agree
Disagree
Strongly Disagree
No real opinion

I understand the mission.					
I understand my responsibilities as a board member.					
I feel I've been adequately trained for my role as a board member.					
I understand the balance between the board's responsibility and that of management.					
I understand the financial benchmarks our board is tracking.					
I understand the quality-related benchmarks our board is tracking.					
When asked to prepare for meetings, I do my homework to be as knowledgeable as possible for the discussions.					
I am a good ambassador for the hospital in the community because I understand the hospital's mission and services.					
I am good about attending board and committee meetings.					
I participate in committees as requested.					

I contribute financially to the organization.					
I believe I am doing my fair share to contribute to the success of our hospital.					
Being on the board is rewarding to me.
